**REVIEWS:**

"Her crystal clear and inviting voice shines on this collection of ten original songs."  
- *Penguin Eggs, Canada's Folk, Roots & World Music Magazine*

"Meg Tennant's Driving With You is rich and dreamy, an auspicious musical maiden voyage that you won't want to miss."  
- *Don Strong, The Edge, Best of 2002 Sound & Spirit CD Reviews*

"I still play it constantly, and her lyrics and the purity of her voice still move me. These tracks are filled with people coming and going—whether it's Buddy coming back to town, Millie being born, or the Maker of Marimbas who is leaving town."  
- *Clelie Rich, Room (Canadian Literary Journal)*

"In 10 tracks, Meg Tennant invites us into her life, and anyone refusing the invitation will be the poorer for it."  
- *Rambles, A Cultural Arts Magazine*

"She has a gift for the unexpected, yet still simply beautiful melody...Driving With You is a fine collection of very well-written songs, great performances, and masterful execution in the sound."  
- *Stacey Board, The Muse's Muse*
